-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The amendment of 2/26/04 has been entered. Claims 3-14 are pending.

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 3-8 are rejected under 35 U.S.C. 102(e) as being anticipated by US Pat. No. 6197863 Eck et al..

Eck discloses the instantly claimed functionalized silica, its use in coatings, and the method of making it at the abstract; column 5, lines 34-67; column 6, lines 48-59; column 9, lines 4-45 and 66-67; column 10, lines 1-10; and the remainder of the document. The instant claims recite "comprising" with regard to the method steps and therefore encompassed the isopropanol argued by the applicant. These arguments are therefore not persuasive.

4. Claims 3-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over US Pat. No. 6197863 Eck et al..

Eck discloses the instantly claimed functionalized silica, its use in coatings, and the method of making it at the abstract; column 5, lines 34-67; column 6, lines 48-59; column 9, lines 4-45 and 66-67; column 10, lines 1-10; and the remainder of the document. It would have been obvious to one of ordinary skill in the art at the time of invention to use the silica of Eck with a polyurethane coating because the silica of Eck is described for use in coatings at column 9, lines 10-11 and polyurethanes are such well known paints/coatings. The instant claims recite "comprising" with regard to the method steps and therefore encompassed the isopropanol argued by the applicant. These arguments are therefore not persuasive because there are no unexpected results shown in a manner commensurate in scope with the prior art and the instant claims.

5. The instant claims 9-14 are allowable over the cited prior art for the reasons argued by the applicant.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 1714

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick D. Niland whose telephone number is 703-308-3510. The examiner can normally be reached on Monday to Friday from 10 am to 5 pm.
